## Supa-Tape®

**At last, a double sided adhesive tape that actually works!**

**Supa-Tape®** is a unique super strength double sided adhesive tape, perfect for the permanent bonding of laminate & PVC edging's to worktops & laminate boards as well many as other trims & components used in the building, shop fitting, sign, display & furniture trades as well as automotive & aerospace industries. The instant adhesive qualities enable the user to immediately assemble components eliminating the time associated with "wet" contact adhesives or other types of fixings.

The micro thin adhesive film provides an invisible glue line whilst the with high initial tack, high shear strength and excelent ageing resistance makes this adhesive tape fast & econmical to use. it is totally resistant to the influence of household chemicals.

Resulting from a very high adhesive coating, this adhesive tape can mould itself to all surfaces, even the roughest substrates such as chipboard.

**Supa-Tape** is suitable for applications internally or externally, on flat or uneven surfaces. The bond increases to an unussally high level after a period of time. The maximum final adhesion is achieved after 24 hours.

- *ECONOMICAL.*
- *EXCELLENT STRENGTH.*
- *EXCELLENT CHEMICAL RESISTANCE*
- *EXCELLENT TEMPERATURE RESISTANCE*  
+180°C TO -50°C.
- *INVISIBLE GLUE LINE.*
- *ELIMINATES WET GLUE APPLICATION.*
- *FAST*
- *SUITABLE FOR INTERIOR & EXTERIOR APPLICATIONS*
- *WATERPROOF.*

Available in 5, 10, 25  
and 50 metre rolls

Apply to the  
chipboard core  
using firm hand  
pressure

Peel back the backing  
paper and apply the edging  
strip,  
again using firm hand  
pressure. The  
edging can be trimmed  
straight away.

The result is a clean and  
quick permanent job.
